BOWL SHAPED BOTTOM

**LINER CUT**

I prefer a very full liner cut

I prefer a regular liner cut

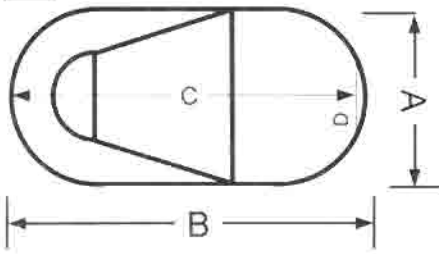

This pool would be easier to fit with a shallower cut

CLW & CLL = Centerline Width & Centerline Length  
 This dimension is not required for all pools yet can be very helpful to us with any pool, especially those that have rounded features in the bottom of the pool. It is **required** on pools that have a bowl shaped bottom.
